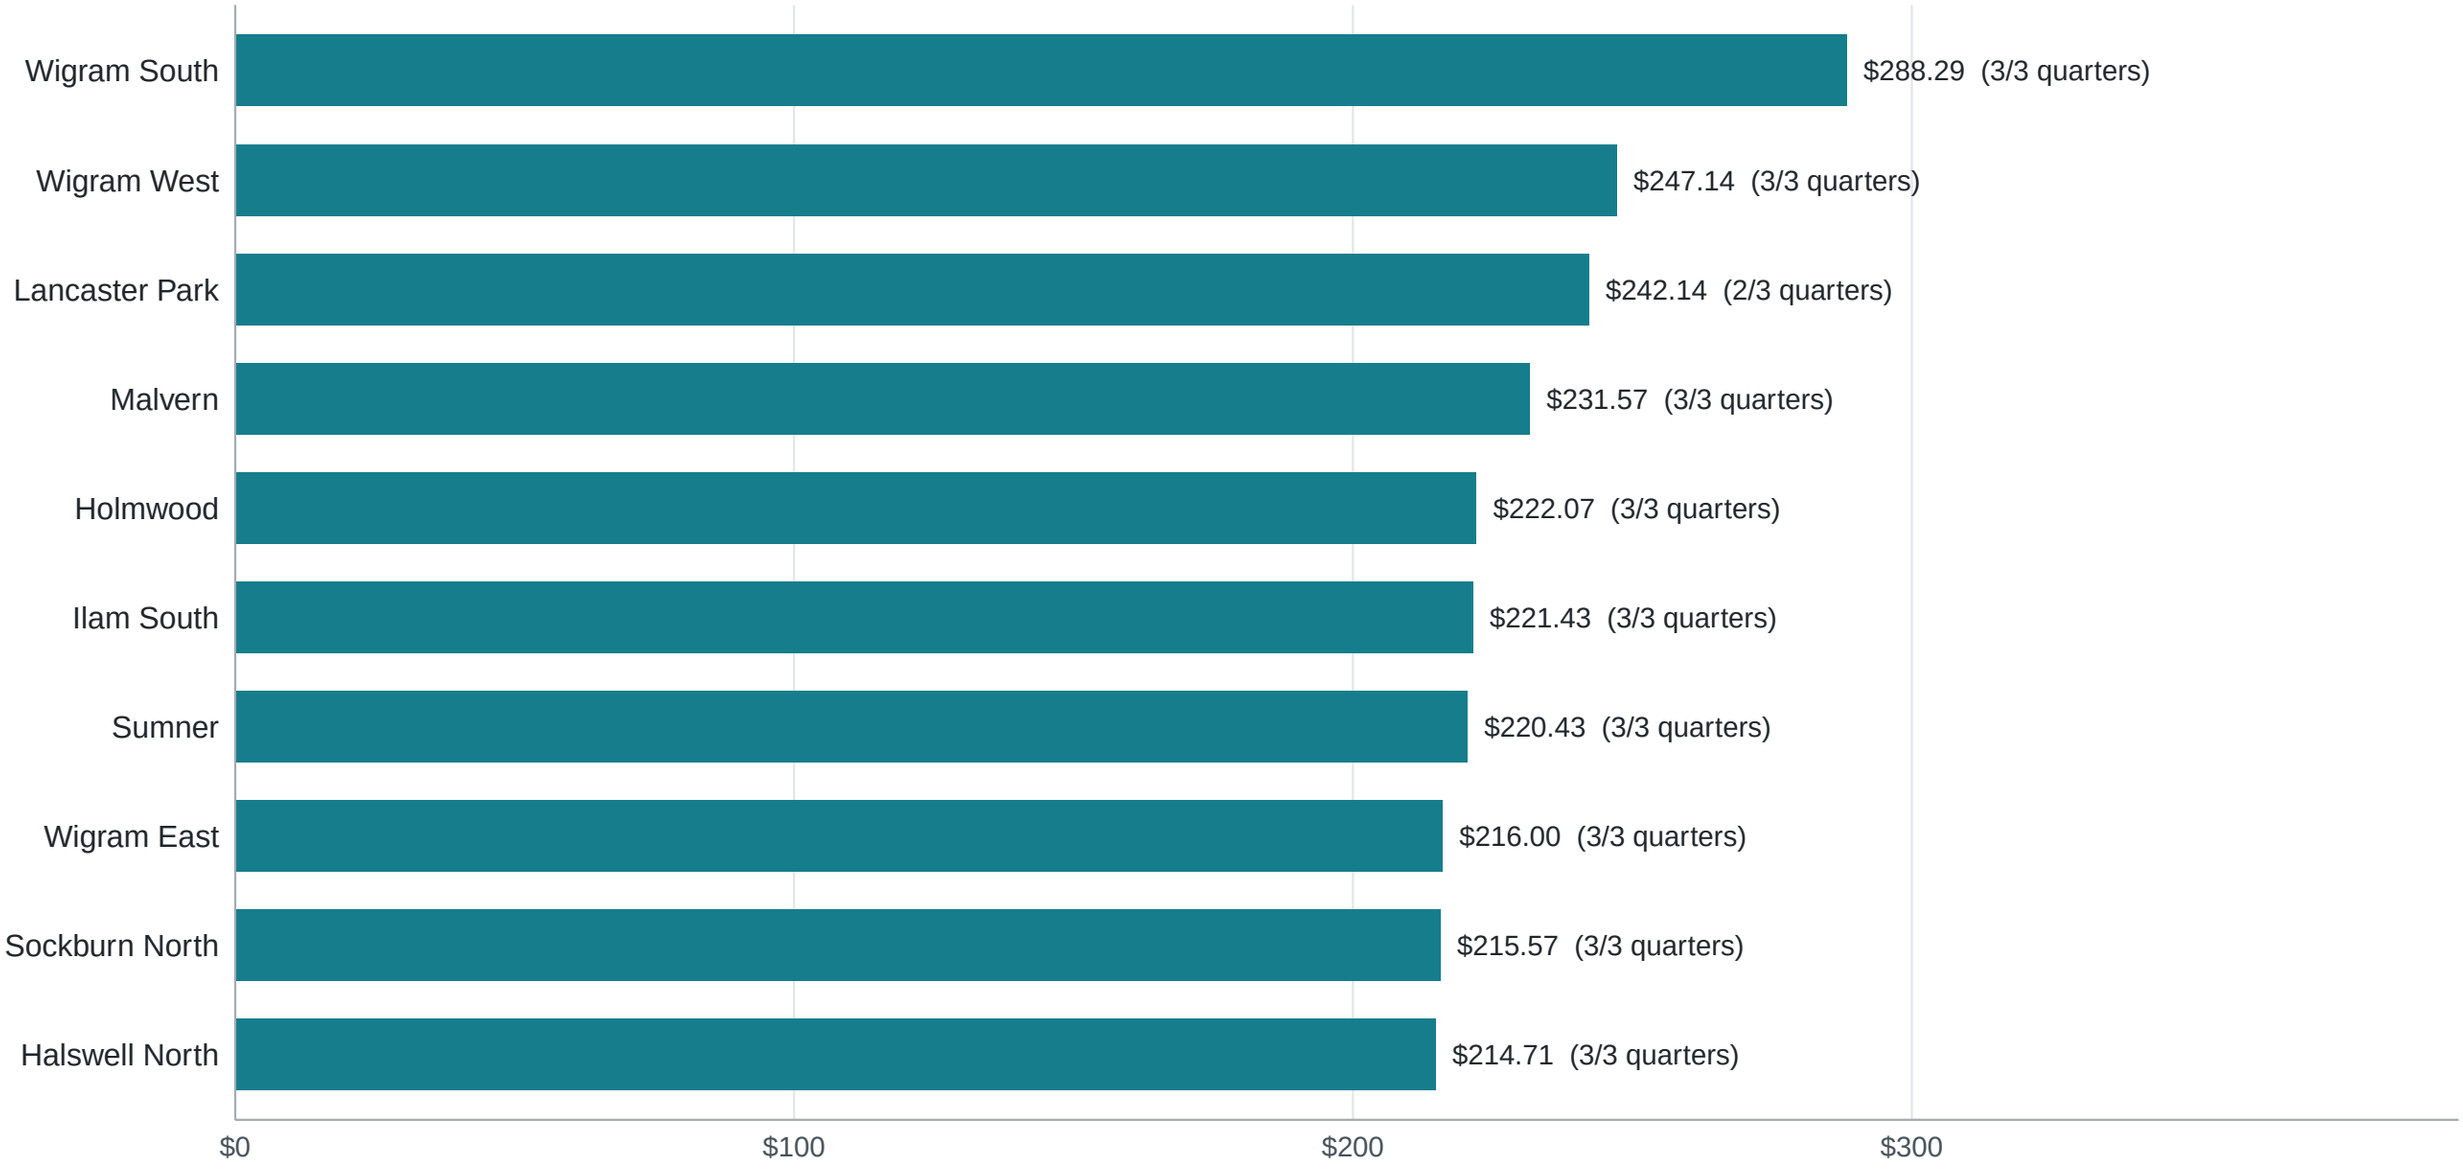
Largest short−term vs long−term rental price gaps

Top 10 matched SA2 areas | October 2025−June 2026 | SA2 2019
Median of quarterly gaps: equal−listing Airbnb nightly median − (tenancy weekly median / 7)



Each listing contributes one within−quarter median. Ambiguous listing−quarter area assignments are excluded and recorded.
Labels show quarters with a usable gap. Airbnb prices are missing for Dec 2025−Feb 2026; only available prices are used.
Advertised Airbnb prices and bond rents describe different markets; the gap is not a profit or causal estimate.
